

Meghana Shravani A

Power BI Developer | Data Analyst

Email: meghana.shravani2001@gmail.com | Phone: +91 8825889661

Professional Summary

Microsoft Certified Power BI professional with 3 years of experience supporting program management and project controls through advanced analytics, dashboarding, and reporting solutions. Strong expertise in ETL, data modeling, Power Query, DAX, and Power BI Service administration. Adept at translating stakeholder requirements into actionable insights, delivering high-quality dashboards, and supporting agile program execution.

Key Skills

- Power BI Desktop & Service (Advanced), Power Query, DAX, Data Modeling
- ETL (Extract, Transform, Load), SQL, SSMS, Power Pivot
- Advanced Excel (Pivot Tables, Power Query, Lookups, Dashboards)
- Program / Project Analysis, KPI Tracking, Target Monitoring
- Row Level Security (RLS) & Power BI Workspace Administration
- Data Visualization, Storytelling, and Dashboard Design
- Agile / Program Execution Support, Stakeholder Communication

Professional Experience

Tech Mahindra – Bengaluru

Associate Software Engineer – Power BI Developer | Aug 2023 – Present

Client: HALEON

- Worked as a Program Analyst / Project Controller supporting Program Management activities through Power BI dashboards and analytics.
- Performed end-to-end Power BI development including ETL, data modeling, relationship management, and advanced visualizations.
- Established logic, primary keys, and optimized relationships for complex data models to ensure performance and accuracy.
- Gathered and analyzed requirements by coordinating meetings with internal and external stakeholders.
- Independently developed solutions using advanced Power Query transformations, DAX measures, and calculated columns.
- Designed creative and executive-ready dashboards to present KPIs, targets, trends, and program health metrics.
- Tracked multiple dashboards, monitored targets, and ensured timely delivery of quality outputs.
- Executed agile-style tasks within program and portfolio environments.
- Integrated data from multiple sources including folders, files, SharePoint, and databases.
- Implemented Row-Level Security (RLS) and supported Power BI application security models.
- Deployed dashboards to Power BI Service, managed workspaces, and handled admin and maintenance activities.
- Created and maintained Power BI documentation and procedures specific to projects.
- Ensured data accuracy, refresh reliability, and troubleshooting of Power BI Service issues.

Education

B.E. in Computer Science and Engineering – Adhiyamaan College of Engineering (Anna University) | 2019 – 2023

Certifications

- Microsoft Certified: PL-300 – Power BI Data Analyst Associate
- AWS Certified Cloud Practitioner
- HackerRank SQL Certification
